

Finish winners from 2007

The big Nordic fight!

It is now a fact that Trolling Master Bornholm for the first time will display the big Nordic fight to be the best trolling nation in Norden. Today the third Finish boat was registred, at that means that the fight between Norway, Sweden, Denmark and Finland is on. Norway is in Nations Cup for the first time and has right now ni participants. Sweden sets a new record for participation with 27 boats.

In total 187 boats has registered.

Norwegian press is coming

Trolling Master has in earlier years had a couple of Norwegian boats in the competition, but this year Norway sets a new record with nine boats. We know that a 10th boat is on the way. This means that the fishing magazine "Alt om fiske" sends a reporter to Tejn. Krister Ottesen is going to write also for their nwt magazine:

<http://www.klikk.no/produktjemmesider/altomfiske/article425197.ece>

Among the Norwegian boats are the chairman for Trollingforbund, Per Olav Kristiansen from Raufoss.

New fishing rule!

The judges met today and changed one rule in the competition. The reason is that times have changed.

Back at the first Trolling Master 2005 the professional fishermen in the harbours of Bornholm were only allowed to catch salmon smaller than 72 cm. That meant that we decided only to allow fish bigger than 72 cm in the competition.

The rules for salmon fishing was changed in February and the fishermen may now catch salmon bigger than 72 cm.

Our conclusion has been to change the minimum size to 62 cm.

That means a tougher competition in the boat competition and in Nations Cup, because there will be many more fish in the competition.

All participants will receive an update version of the rules before the competition starts.

The rules on the homepage will be changed tomorrow.
